

Oregon — E-Verify Employers — January 1, 2017

This list covers currently enrolled employers, federal contractors, and E-Verify Employer Agent (EEAs) in E-Verify as of Jan. 1, 2017. The list includes only those employers, federal contractors, and E-Verify employer agents who have self-reported that their company has five or more employees. As of January 1, 2017, there were 4,046 employers in Oregon enrolled in E-Verify who had 5 or more employees.

The Business name is the name used during registration with E-Verify. It can be the legal name of the business or individual, a trade name or abbreviation.

E-Verify issues an updated list quarterly for the entire U.S., and provides an Employer Search Tool with various options for searching the list, along with more information about the list.

E-Verify has a Self-Check feature for workers, enabling anyone to confirm that their employment eligibility information is in order by checking it against the same databases E-Verify uses when employers enter a case.

See end of the list (page 95) for online links.

City	Employer Name	Federal Contractor	E-Verify Employer Agent	State	ZIP Code	Workforce Size
